

Polywater® CableWash™

CABLE JACKET WASHING SOLUTION

**Safe and Effective Way to
Remove Dirt from Cable**

Spray, then scrub cable jacket clean

PRODUCT BENEFITS

- **Safer:** No harsh solvents to swell or damage cable jackets.
- **Biodegradable:** Water-based cleaner is environmentally friendly.
- **Convenient:** Eliminates need to source water, soap, or other cleaners.
- **Clean:** The proper way to prep the cable-splicing area.
- **Non-Freezing:** Suitable for cold weather application.

Create Clean Surfaces for Terminations

Polywater® CableWash™ is a water-based cleanser that can be used even in cold weather environments to safely and effectively remove mud, dirt, and grime from cable jackets without harm. Cable cleaners, when sprayed directly onto jackets, can adversely affect their properties.

Brush head removes dirt easily

Cleaned cable jacket

Cleans cables even in cold weather

Catalog # CWS-22

Field-Friendly Package

CableWash is excellent for cleaning large areas of cable jackets where the extended area is needed for positioning heat shrink or cold shrink splice coverings prior to positioning them over the cable termination area. This prevents dirt contamination in the splice area that can lead to splice failure. It comes in a package with a "scrubbing head" that cuts through clay easily.

POLYWATER CABLEWASH

Catalog #	Package Description	Units/Case
CWS-22	22-oz. bottle with trigger sprayer and bristle head	12

SPECIFICATIONS AND APPLICATIONS:

- **Optimum:** The key to constructing a flawless termination is by maintaining a clean environment for the components and following the manufacturer's specific guidelines.
- **Compatible:** Will not affect cable jackets and the outside of elbows, T-body connectors, and splices.
